

In 2019, Haviland Telephone Company is expanding their fiber internet network in Greensburg! In this round of construction they will not be able to cover all of town, so they will be looking at what areas in town are most interested in these services. Stay tuned for more information on how you can show your interest and support for this project!

Celebrate Kansas Day in Greensburg!

January 29th is Kansas' 158th birthday! Celebrate by enjoying free admission at The Big Well Museum for Greensburg residents. Just stop by, let them know you're a local, & enjoy a trip through our history. And then visit the Kiowa County Historical Museum, it's always free!

Another Sustainable Option---Go Paperless!

The City now has the ability to offer E-Statements. Those who would prefer to receive their utility statements via email, rather than receive a paper statement, should notify City Hall and provide an email address. It's that simple. This option will not change your current method of payment.

Do you feel out of the loop? How can we better get information to you? Is it social media, website, newspaper, this newsletter, text message, smoke signal? When you pay your utility bill this month, let us know by writing your preferred method of communication on your bill, shoot us an email, or tell us when you bring your payment. Thanks!
