Census Day is **April 1, 2020**. Data collection will begin in March 2020 and continue through August 2020. Households will receive a postcard with instructions for completing the census beginning in March 2020. The Census will NOT call or email you.

**Why does the census matter?**

- Census numbers are used to distribute over $6 billion in federal funds to Kansas every year.
- Every uncounted person costs the state of Kansas approximately $2,082 in federal funding.
- An under count in Greensburg means our community could miss out on $46,845 in funding (over 10 years) for each missed household.
- Census data is used to determine federal, state, and local voting districts.
- Businesses and government agencies consider population trends when choosing places to locate, which in turn boosts economic growth.
- As it’s only a once-every-10-years process, it’s crucial to get the count right or states that are undercounted will be shortchanged for a decade.
- Government, businesses and other stakeholders use census data for infrastructure and transportation planning; emergency preparedness, disaster relief, education funding, health tracking and disease control, and a multitude of other things.

**What questions will be asked?**

Eleven questions, approximately 10 minutes per person

- Name
- Relationship to householder
- Phone number
- Household tenure (own/rent)
- Age
- Number of people in household
- Sex
- Usual place of residence
- Race
- Citizenship
- Hispanic origin

**How can I be counted?**

- Online, using the internet or a smartphone, over the telephone, by calling the Census call center listed on the Census postcard, using a paper form, or by responding to a Census enumerator.

---

**Are census responses confidential?**

**YES!** All data are protected under Title 13 of the U.S. Code. Records are confidential for 72 years by law. All Census Bureau employees swear a lifetime oath to protect respondent information. The penalty for wrongful disclosure is up to 5 years imprisonment and/or a fine of $250,000. The Census Bureau will never share a respondent’s personal information with other government agencies. Data are only released in summary tables, no individual records are released.

**The Census Bureau will never ask for:**

- A full social security number
- Money or donations
- Anything on behalf of a political party
- Your full bank account or credit card information

---
